Tools & Methodologies: Git, GitHub, Jira, Postman, Swagger/OpenAPI, Android Studio, IntelliJ IDEA, VS Code, Agile Scrum, UML

EXPERIENCE

Full Stack Developer Intern

Feb. 2026 – Jun. 2026

Polytech – Engineering Graduation Project

Gabes, Tunisia

- Built **TechDoctor**, a full-stack repair workshop management platform that digitizes customer service and repair workflows.
- Implemented customer and device management, repair tracking, invoicing, planning, and QR code features.
- Integrated AI-powered OCR for automated invoice data extraction and processing.

Mobile Developer Intern

Feb. 2025 – Jul. 2025

WeeCode – Master's Graduation Internship

Gabes, Tunisia

- Developed a mobile application connecting students with volunteering opportunities and community activities.
- Implemented activity discovery, participation management, and community engagement features.
- Delivered a responsive and user-friendly mobile experience focused on accessibility and ease of use.

Full Stack Developer Intern

Jul. 2024

Dhahri Alkubaisi Technologies – Engineering Training Internship

Tunisia

- Contributed to a collaborative task management platform designed to improve team organization and workflow monitoring.
- Worked on database design, REST API development, backend logic, and task tracking features.

Web Developer Intern

Feb. 2023 – Jun. 2023

Erathis-IT – Bachelor's Graduation Internship

Tunisia

- Developed an intelligent search engine using Elasticsearch to enhance data retrieval and search accuracy.
- Contributed to improving search performance and delivering a faster and more efficient user experience.

PROJECTS

[VIEW PORTFOLIO](#)

TechDoctor | Full Stack · AI

- An intelligent repair workshop management platform designed to digitize customer service and repair operations.
- Combines full-stack architecture, AI-powered invoice processing, QR code features, workflow automation, and intelligent assistance.

EcoMinds | Mobile · Social Impact

- A mobile platform connecting students with volunteering opportunities and community initiatives.
- Enables users to discover activities, participate in community initiatives, and engage with meaningful social experiences.

Opportuna | Web Application · Recruitment Platform

- A recruitment platform designed to connect job seekers with employers through structured job listings and candidate applications.
- Supports recruitment management workflows and provides a streamlined experience for both candidates and employers.

EDUCATION

Engineering Degree in Software Engineering <i>ESSAT Gabes</i>	Sep. 2024 – Jun. 2026
Professional Master's Degree in Mobile Development Engineering <i>ISG Gabes</i>	Sep. 2023 – Oct. 2025
Bachelor's Degree in Information Technology <i>SET Mahdia</i>	Sep. 2020 – Jun. 2023
